Our inventory of stock, just completed, shows too many goods on hand, even though the winter weather has scarcely set in. The long-continued warm spell has caused many persons to hold back, and put off buying Winter Clothing, thus keeping our counters well piled up. We anticipate a lively business this month and next, as we are bound to have a long-continued cold spell before the "frost bloom in the spring." Nevertheless, we are going to make off our stock as quickly as possible, regardless of profit. Our "outlets" sale before and during the holidays, which brought us such a deluge of trade, will be "outdone" in the new out which we now inaugurate. We ask the attention of persons who have their winter outfit yet to buy to this notice. It is genuine, and no "chestnut." We mean business in every line.

Our immense stock of Gent's Furnishings is included in this tariff.

Our inventory of stock, just completed, shows too many goods on hand, even though the winter weather has scarcely set in. The long-continued warm spell has caused many persons to hold back, and put off buying Winter Clothing, thus keeping our counters well piled up. We anticipate a lively business this month and next, as we are bound to have a long-continued cold spell before the "roses bloom in the spring." Nevertheless, we are going to ruff off our stock as quickly as possible, regardless of profit. Our "cut-rate" sale before and during the holidays, which brought as such a deluge of trade, will be "outdone" in the new cut which we now inaugurate. We ask the attention of persons who have their winter outfit yet to buy to this notice. It is genuine, and no "cheat-out." We mean business in every line.

Our immense stock of Gent's Furnishings is included in this new tariff.
